Sell Credyx to trucking companies. Keep 50% of what we earn.

Credyx in one sentence: we do the billing and payment chasing for trucking companies, so they get paid on time without the paperwork headache.

1 Who we are

- Credyx is an **accounts-receivable (A/R) and back-office service** for trucking carriers.
- Carriers send us their load paperwork. **We invoice their brokers and follow up until they are paid.**
- Everything is visible to the carrier live in one online portal.

We are NOT factoring and NOT a cash advance. Carriers don't sell their invoices, don't take loans, and keep their own broker relationships. Brokers pay the carrier; we just make sure it happens.

2 What we offer carriers — the Managed plan

What Credyx does	What the carrier gets
Checks every load's paperwork	No rejected or missing invoices
Sends invoices to brokers	No more billing work in the evenings
Follows up with brokers, handles holds & disputes	Paid faster, no chasing
Shows live status in an online portal	Always knows what's paid and what's due
Stores documents securely (10 GB)	BOLs, rate cons and NOAs in one place

PRICE TO THE CARRIER

1% – 2% of the money we collect for them.
No monthly fee. No setup fee. If nothing is collected, they pay nothing.
You choose the % based on fleet size (more trucks = lower %).

3 Your commission

50%

You get half of every fee Credyx earns from the carriers you bring in.

Carrier's collections × fee (1–2%) = Credyx fee → you get 50%

Commission examples (section 3 continued)

Carrier collects / month	Fee	Credyx earns	You earn / month
$50,000	2%	$1,000	**$500**
$100,000	2%	$2,000	**$1,000**
$100,000	1.5%	$1,500	**$750**
$250,000	1%	$2,500	**$1,250**

Examples only. Real commission depends on each carrier's actual collected volume and agreed fee.

4 The rules — what to sell

DO	DON'T
Sell the **Managed plan only**	Sell or quote the Self-Service plan
Quote **between 1% and 2%**, based on fleet size	Quote below 1% or above 2%
Say it is A/R help, **not factoring**	Promise cash advances or same-day pay

5 Who to talk to

- Owner-operators and small to mid-size fleets that bill brokers
- Carriers tired of paperwork, rejected invoices or slow-paying brokers
- Carriers who want help with billing but **don't want factoring**

6 How it works — 3 steps

1. You introduce

Find a carrier and send us their name and contact.

2. We onboard

Credyx signs them up on the Managed plan and does all the work.

3. You get paid

You earn 50% of the Credyx fee on that carrier.

7 What to say — 20-second pitch

"Credyx takes billing off your plate. We check your paperwork, send your invoices to brokers, and chase the payments until you're paid — and you can see it all live online. It's not factoring, and there's no monthly fee. You only pay 1–2% of what we actually collect for you."
